

INFECTION CONTROL

KEEPING YOUR FACILITY SAFE AND CMS / CDC COMPLIANT

SAFE. CLEAN.

Monitor infections and contamination threats on a nationwide scale through one infection control solution.

Using the Bac-Track system, all of your facilities can be viewed from one dashboard and reports of COVID-19 can be automated.

YOU CAN HELP KEEP RESIDENTS AND STAFF SAFE

As facilities manage COVID-19 and other infections, tracking contamination levels on surfaces is critical. Facilities are reopening. Residents are now seeing their families for the first time in months. Infection related cases can be mitigated by following proper precautions. Homes need a plan to track bacteria and virus levels on surfaces. We bring a systematic approach to help prevent the spread of COVID-19 using: ATP monitoring, advanced electrostatic sprayers, cloud-based Bac-Track software and training. We provide the most comprehensive infection control program available.

- Track and report all infections according to current guidelines.
- CMS and CDC compliant
- View contamination levels by facility, department, and even down to a single room.
- Provides analytics from highest to lowest risk.
- Connect all facilities and reports of contamination and provide reporting of outbreaks to visualize better understanding and a corrective plan of action.

1

TEST

Our Bac-Track ATP reader is the most advanced ATP System on the market today. It provides sanitation verification for immediate, quantifiable measurements of environment and high-touch surface cleanliness.

2

TREAT

We provide the latest products and solutions designed specifically for facility managers. This includes the EMist EPIX360 electrostatic sprayers – the most effective handheld, cordless electrostatic disinfectant sprayers in the world. More coverage. Less waste. Better results.

3

TRACK

Our proprietary software, Bac-Track, monitors contamination levels in an easy-to-read dashboard dedicated to your facility. It also allows you to monitor by department or equipment category to pinpoint your problem areas. Our software includes infection control reporting to meet new CMS § Reg 483.80 – F880 guidelines and CDC reporting requirements.

4

TRAIN

We offer onsite and online support and training that will assist in your fight against germs. Our software features “Ask Eddy,” a virtual intuitive assistant.

BAC-TRACK: CONNECTS ALL FACILITIES
